Highlights

Immediate comfort w/ rapid 2 s heating

Experience powerful, immediate warmth in just 2 seconds with adjustable power up to 1500 W. Ideal for rooms up to 15 m² in size.

Ultra-quiet, noise lower than a whisper

Experience the comfort of warmth with noise levels as low as 24 dB(A)—quieter than a whisper—thanks to its low-noise DC motor (2). Ideal for a restful night's sleep, a focused office environment or a peaceful ambiance in your living room.

5 x advanced safety features

The 2000 series is built with 5 advanced safety features: (1) tip-over protection, (2) 65° overheat protection, (3) a VDE-certified safety plug, (4) flame-retardant materials and (5) a safety auto-off after 16 hours of inactivity. Providing warmth that you can trust.

Customise your experience with 5 modes

Choose from 2 power modes: gentle heating at 600 W or powerful heating at 1500 W. For energy savings up to 25%(1), set your target temperature to one of 3 levels—Low, Medium or High—which automatically maintain the ambient temperature within different temperature ranges.

Sleek and compact design

The 2000 series combines powerful warmth with a sleek, stylish design that complements any room. With its compact dimensions of just 24.9 cm in height and 17.7 cm in width, it can fit seamlessly into any corner.

Easy to carry with a built-in handle

Wherever you need warmth, our heater is there. Designed for easy portability, its lightweight build at just 1.51 kg and convenient built-in handle at the back allow you to move it from room to room effortlessly. Enjoy warmth wherever you choose to relax or work.

Tested for durability + quality

When choosing Philips, you choose a trusted brand with more than 80 years of experience and innovation in air care. Our compact fan heaters go through 122 tests to ensure that they provide you with reliable, long-lasting comfort, today and tomorrow.
