2 delicious coffees from fresh beans, with ease Thanks to the intuitive touch display

Enjoy the delicious taste and aroma of coffee from fresh beans, at the perfect temperature, thanks to our intelligent brewing system. The classic milk frother allows you to create a silky smooth cappuccino or latte macchiato with ease.

A variety of coffees customized to your taste

- Delicious milk froth thanks to the classic milk frother
- Easy selection of your coffee with intuitive touch display
- Adjust aroma strength and quantity via My Coffee Choice
- From fine to coarse thanks to the 12-step grinder adjustment

High quality coffee from fresh beans

- The perfect temperature, aroma and crema cup after cup**
- 20,000 cups of finest coffee with durable ceramic grinders
- Keep your beans fresh for longer thanks to the aroma seal

Effortless use and cleaning for everyday enjoyment

- Up to 5000 cups* without descaling thanks to AquaClean
- Easy cleaning thanks to fully removable brew group
- Automatic descaling for your convenience
- Dishwasher safe parts for your convenience

Highlights

Classic milk frother

The Classic Milk Frother dispenses steam, allowing you to easily prepare silky smooth milk froth for your cappuccino. What's more? With only two parts, the Classic Milk Frother is also easy to clean.

Intuitive touch display

The irresistible taste and aroma of coffee from fresh beans is just one touch away. Our intuitive touch display allows you to easily select your favorite coffee.

My Coffee Choice

Adjust the strength and quantity of your beverage with the My Coffee Choice menu. Easily choose from three different settings to suit your preferences.

12-step grinder adjustment

Our durable ceramic grinders can be adjusted in 12 steps, so you can turn your beans into anything from ultra-fine powder to coarse grindings.

Perfect temperature and aroma

The Aroma Extract system intelligently strikes the optimum balance between brewing temperature and aroma extraction by keeping

the water temperature between 90 and 98°C, while regulating the water flow rate, so you can enjoy delicious coffees.

100% ceramic grinders

Our grinders are 100% pure ceramic: extremely hard and precise, so you can enjoy fresh aromatic coffee, for at least 20.000 cups.

Preserve beans' aroma

The new Aroma seal protects your favorite coffee beans and makes sure they preserve their original aroma over time, while reducing the grinder noise.

AquaClean filter

Our patented innovation, AquaClean water filter, ensures you make the most out of your fully automatic coffee machine. By changing the filter at machine request, you will not need

to descale your machine for up to 5000* cups, while enjoying clear and purified water. Once AquaClean is installed in your coffee machine, the descaling notification alarm is automatically deactivated.

Removable brew group

The brew group is the heart of every fully automatic coffee machine, and should be cleaned regularly. The removable brew group allows you to clean it thoroughly just by rinsing it under the tap.

Automatic descaling alarm

It's easy to clean and maintain your coffee machine with the automatic program which notifies when you have to descale it. You can adjust the frequency of this procedure to match the water hardness at home.

Dishwasher safe parts

For your convenience, you can put LatteGo (or Classic Milk frother), drip tray and the coffee ground container in the dishwasher. This will save time and ensure a hygienic cleaning.

Specifications

Country of origin

Designed in: Italy
Made in: Romania

General specifications

User Interface: Touch screen display
Milk Solution: Classic Milk Frother

Technical specifications

Capacity milk carafe: X L
Capacity waste container: 12 servings
Frequency: 50 Hz
Max. cup height: 150 mm
