

Philips Air Purifier 3000 Series HEPA NanoProtect filter

FY3433/10

- Compatible with: AC3256/60, AC3259/60.
- Filters 99.97% of 0.003 μm particles

Powerful protection for the best performance

Genuine Philips filter that fits perfectly

- Perfect fit for consistently high performance
- Philips filters ensure that your device works effectively
- The NanoProtect HEPA filter cleans faster than H13 (4)
- Up to 99.9% virus removal
- Connect with the device and monitor it through the app
- Follow the Smart filter status indicator on your device
- Up to 24 months of usage

*(1) Recommended lifetime is calculated based on the Philips user's average usage time and the WHO urban outdoor pollution level data. Actual lifetime is impacted by usage environments and frequencies.

** (2) Only applicable for selected models with connectivity

*** (3) Only applicable in those countries where the Philips shop is available

**** (4) NanoProtect HEPA filter material provides lower air flow resistance than the material from a HEPA H13 filter, enabling a Philips air purifier with NanoProtect to deliver a higher Clean Air Delivery Rate (CADR) than with an equivalently sized certified HEPA H13 filter.

***** (5) From the air that passes through the filter, tested with NaCl aerosol by iUTA according to DIN71460-1.

***** (6) Contingent on the filter being used with AC1711 or 1715 Philips purifier

***** (7) Microbial Reduction Rate Test conducted at Airmid Healthgroup Ltd. tested in a 28.5 m³ test chamber contaminated with airborne influenza A(H1N1).

***** (8) Microbial Reduction Rate Test at external lab, in a test chamber contaminated with avian coronavirus (IBV) aerosols, with Philips HEPA NanoProtect filter.

Highlights

The original Philips filter

Genuine Philips filter was designed together with the device itself to ensure a perfect fit, which guarantees the continuously smooth operation of the device.

Quality you can trust

Philips air filters go through a set of mandatory and strict inspection tests before being released from the factory. They are subjected to rigorous life and durability tests for continuous operation 24/7. Our filters are designed to provide the best performance of your Philips purifier until the last day of the filter's lifespan.

Superior performance

NanoProtect HEPA filter's low-resistance fibres maximise the airflow. The electrostatic charge attracts particles as small as 0.003 microns with 99.98% efficiency, enabling the filter to clean the air faster than the HEPA H13 filter, which is used for medical applications (4)

Up to 99.9% virus removal

The purifier captures aerosols including those which may contain respiratory viruses. Tested independently to remove up to 99.9% of viruses and aerosols from the air. Also tested for coronavirus (8).

Track filter lifetime through

Monitor the lifetime and status of your filter anytime, anywhere with the CleanHome+ app (2). Receive an alert when it's time to change your filter and easily order a replacement directly through the app (3).

Effortless maintenance

Your Philips device notifies you when to clean your pre-filter and when to replace the filter. This takes less than a minute. Maintenance of the device is effortless, ensuring that you always enjoy clean, healthy air.

Long-lasting performance

Philips NanoProtect HEPA filter provides consistent protection and guarantees optimal filtration for up to 2 years. (1)

Specifications

General Specification

Included in the box: 1 x filter
Lifetime: Up to 2 years
Pre-filter: No
HEPA NanoProtect: Yes
Product Type: HEPA NanoProtect filter
Active carbon: No

Performance

Particle filtration: 99.97% at 0.003 microns

Replacement

For Philips air purifier(s): AC3256, AC4550, AC4558, AC3259

Weight and Dimensions

Product Width: 290 mm
Product Length: 50 mm
Product Height: 370 mm
Product Weight: 1.42 kg
Package Width: 295 mm
Package Height: 377 mm
Package Length: 55 mm
Package Weight: 1.644 kg
