

Philips Genuine
replacement filter
Integrated 3-in-1

Up to 24 months' lifetime
HEPA+Active Carbon+Pre-filter
Filters 99.95% of 0.003 µm
particles
Filters gases & odours

FYM220/30

3 filters in 1 to achieve day one performance

Genuine Philips filter that fits perfectly

Our 3-layer filtration with NanoProtect HEPA, Active Carbon and pre-filter makes sure that you are protected from bacteria, pollen, dust, PM2.5, pet dander and gases.

Long-lasting performance

- Up to 24 months of usage

Superior performance

- Philips filters ensure that your device works effectively
- 3 filters in 1 for convenience and superior performance
- Superior performance
- Up to 99.9% virus removal

Genuine Philips filter

- Perfect fit for consistently high performance

Designed around you

- Follow the Smart filter status indicator on your device
- Regularly clean the pre-filter

PHILIPS

Integrated 3-in-1

Up to 24 months' lifetime HEPA+Active Carbon+Pre-filter, Filters 99.95% of 0.003 µm particles, Filters gases & odours

Highlights

The original Philips filter

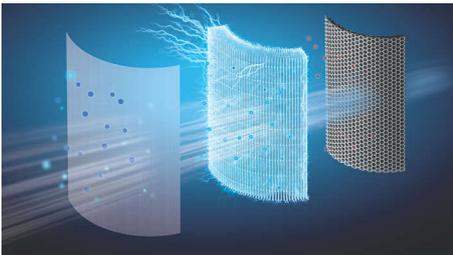

Genuine Philips filter was designed together with the device itself to ensure a perfect fit, which guarantees the continuously smooth operation of the device.

Quality you can trust

Philips air filters go through a set of mandatory and strict inspection tests before they are released from the factory. They are subjected to rigorous life and durability tests, for continuous operation 24/7. Our filters are designed to ensure that your Philips purifier performs at its best right up to the end of the filter's lifespan.

3-in-1 effortless convenience

The cylindrical 3-in-1 filter combines three layers of filtration to keep your device running

like on day one. (6) Our Active Carbon, HEPA and pre-filter are the optimal combination to remove pollutants, viruses, allergens and bacteria. To make sure that you breathe cleaner air, we recommend changing all three filters at once.

Superior performance

A 3-layer filtration with NanoProtect HEPA, active carbon and pre-filter makes sure that you are protected from bacteria, pollen, dust, PM2.5, pet dander and gases. The NanoProtect HEPA technology not only captures pollutants, but it uses a special electrostatic charge to attract them, enabling it to purify the air faster than the HEPA H13 filter, which is used for medical applications. (5)

Up to 99.9% virus removal

The purifier captures aerosols including those which may contain respiratory viruses. Tested independently to remove up to 99.9% of viruses and aerosols from the air. Also tested for coronavirus (8).

FYM220/30

Long-lasting performance

Philips integrated 3-in-1 filter provides consistent protection and guarantees optimal filtration for up to 24 months. (1)

Effortless maintenance

Your Philips device notifies you when to clean your pre-filter and when to replace the filter. This takes less than a minute. Maintenance of the device is effortless, ensuring that you always enjoy clean, healthy air.

Easy to clean pre-filter

For optimal filtration performance, regularly vacuum-clean the pre-filter.

Integrated 3-in-1

Up to 24 months' lifetime HEPA+Active Carbon+Pre-filter, Filters 99.95% of 0.003 µm particles, Filters gases & odours

Specifications

Weight and dimensions

- Dimension of packaging (L x W x H): 210*210*170 mm
- Weight of product: 0.57 kg
- Weight incl. packaging: 0.85 kg
- Dimension of product (L x W x H): 200*105*152.9 mm

Design and finishing

- Colour(s): Blue, black

Replacement

- For Philips air purifier(s): AMF220

Performance

- Filters out: Odour, TVOC
- Particle filtration: 99.95% at 0.003 microns
- Allergen filtration: 99.99%
- Virus and Aerosol filtration: 99.9%
- Filter: Integrated filter

Issue date 2023-07-13

Version: 7.7.1

* (1) Recommended lifetime is calculated based on the Philips user's average usage time and the WHO urban outdoor pollution level data. Actual lifetime is impacted by usage environments and frequencies.

* (2) Only applicable for selected models with connectivity

* (3) Only applicable in those countries where the Philips shop is available

* (4) NanoProtect HEPA filter material provides lower air flow resistance than the material from a HEPA H13 filter, enabling a Philips air purifier with NanoProtect to deliver a higher Clean Air Delivery Rate (CADR) than with an equivalently sized certified HEPA H13 filter.

* (5) From the air that passes through the filter, tested with NaCl aerosol by iUTA according to DIN71460-1.

* (6) Contingent on the filter being used with AC1711 or 1715 Philips purifier

* (7) Microbial Reduction Rate Test conducted at Airmid Health group Ltd. tested in a 28.5m³ test chamber contaminated with airborne influenza A(H1N1).

* (8) Microbial Reduction Rate Test at external lab, in a test chamber contaminated with avian coronavirus (IBV) aerosols, with Philips HEPA NanoProtect filter.
