PHILIPS

Highlights

Automatic shut-off (30 min)

Auto-off

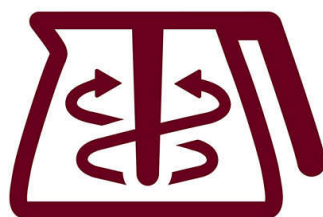

30 minutes after brewing your coffee, the coffee maker switches off automatically to save energy and for safety. This is in accordance with EU regulations, which apply to all coffee makers in the EU. If you want your coffee to stay hot longer, Philips offers coffee makers with a thermal jug.

Drip-stop

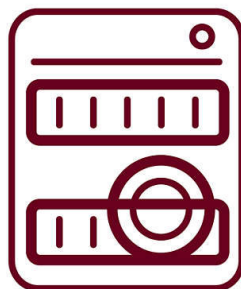

The drip stop allows you to pour a cup of coffee before the full brewing cycle is finished.

Aroma twister

This smart nozzle inside the jug circulates the inflowing coffee evenly through the jug for an optimal and consistent aroma, from the first to the last cup.

Dishwasher-safe parts

The jug and filter holder can be easily cleaned in the dishwasher.

Timer

Wake up to the smell of fresh coffee thanks to the timer. Prepare your coffee maker, set the

time and a fresh jug of coffee is brewed at the time you choose.

Smart water level indication

Fill the water tank easily and precisely with the water level indication.

1.2-litre capacity

This coffee maker can brew 10 (large)/15 (small) cups of coffee. Maximum 1.2 litres but with a compact design that takes up little space in your kitchen.
